A Lions Club project for the community we serve

VOL.17

Here Comes the Bride!

The ladies of Eugowra enjoyed a lovely High Tea and parade of bridal gowns, dating from early last century to the present, at the recent VIEW Club birthday celebrations at Eat Your Greens. Pictured below are the wedding gowns of Jeanette Norris and Kirsten Heinzl. More pictures on page eighteen and nineteen.

from the editor

Just a few words about our editorial policy at the News.

As you know the News is supplied free to all Eugowra households. You can also request a subscription and we will mail the News to you at a cost that covers postage and handling. The News is paid for out of our advertising revenue.

We build the News as a Publisher document, that means we have to build in increments of four pages. I aim for 36 pages a month and we have enough regular advertisers to cover the cost of printing this. If we have additional ads we can print additional stories. Juggling the space in the News is one of the big tasks each month.

We have a group of regular contributors whose input into the News we have sought. These articles take precedence in the News. I try to publish all contributions I receive but sometimes have to make editorial decisions. My criteria is that stories from and about the Eugowra community take precedence.

We also maintain the Eugowra News Webpage and Facebook page. This is all done on an entirely voluntary basis. Volunteers from the Lions Club and the community also collect the News from Parkes and fold it up so it can be delivered free to your mailbox.

By and large editing the news is an interesting way to contribute to the Eugowra Community if you have any local news you would like to see included please feel free to contact me. I would really like a regular contributor from in town as I rarely even get into Eugowra these days due to my work commitments.

It is exciting to see another new business in town, welcome to the Pharmacy, hopefully next month we will introduce the staff of Eugowra's newest business.

Many thanks to the person who anonymously donated \$50 towards the News.

Enjoy the News,

Anne

LETTER TO THE EDITOR

The Bathurst District Historical Society is currently organising the Ben Hall Raid Weekend Festival in Bathurst to be held on 27th to 29th September this year. The event marks the historic and daring raid on Bathurst on Saturday evening of the 3rd October, 1863, some 150 years ago by Ben Hall and his gang.

The main day is Saturday and will include a re-enactment of the raid in William Street with the NSW Mounted Police playing the role of the 1863 Police. Russell Street is being blocked off to allow numerous bushranging, colonial and historic exhibitions, displays and associated activities; tours of the historic Bathurst Court House; bus, walking and driving tours of significant 'raid' sites, cemetery and local associated homes and a great deal more. A 'Ben Hall Raid Dinner' with bushranging historian Peter Smith is being held in the evening.

The Bathurst District Historical Society is trying to contact relations of bushrangers, police, victims from the Ben Hall era and other interested persons. People are asked to please contact the Bathurst District Historical Society, P.O. Box 237, Bathurst NSW 2795 or personally call to the BDHS Museum, phone 63315404 or email info@bathursthistory.org.au or amcrae@lisp.com.au

Caring for the Land

With Nina Hooper

Hello Eugowra.

It's looking like a typical winter isn't it – with crisp mornings, fogs that last till lunchtime and plenty of moisture so far.

Lets hope that the rain continues to appear when we need it so that we can have a clear run this year!

There continue to be changes in the area of natural resource management, with the CMAs, LHPA and sections of DPI moving into the new Local Land Services organisation.

The LLS will be up and running as of the 1st of January and until that time it is business of usual in all that we do.

With this in mind and with National Tree Day about to happen, I thought I would spend a bit of time this month talking about trees on farms.

We are all prone to planting the odd tree but its important to realise the real benefits that they have to offer on the land. Trees really multiple benefits: they help bind the soil; protect soil and pastures from wind - in fact increase pasture growth by creating a warmer microclimate; increase stock production (cold stock eat more!), encourage wildlife; attract birds which eat pasture pests; reduce erosion; improve waterlogged areas; improve aesthetic values, and can also improve the resale value of land:

- Planting trees may improve surrounding pasture and reduce stock stress, therefore improving production.
- So losing areas that are often not productive (e.g. drainage and creek lines) can actually improve productivity rather than reduce it.

When planting, use native trees, shrubs and ground cover to maximise the soil protection and suppress weeds.

Mixed plantings establish better and allow wind to pass through - creating less turbulence (than solid windbreaks) and providing more protection to stock and pastures.

When planting trees - look for areas that provide multiple benefits - for example, shelter-belts can slow run-off and

create wildlife corridors and perhaps also use trees and shrubs that are aesthetically pleasing as well.

When you are considering trees it is also crucial to think about preparation.

In our climate you need to think water, water, water and set your trees up for the best possible start and to lessen the need to water them in an ongoing way.

If you are planting trees in any sort of number, you don't want them to be a burden and an extra job around the farm.

Weed control is paramount –as with any crop weeds can be the absolute decider as to whether your planting succeeds or fails.

Of course, you can control weeds as your trees grow, but imagine the moisture loss that would have already occurred for your trees.

Its also important to source your trees early.

We once had in the district a ready source of trees with more than one supplier but now they're a bit more widely spread.

It's a good idea to call Landcare to find out the best tree supplier and you can find their office at 0268624914

Choose trees that grow locally and don't be swayed by fancy large leafed, soft looking plants.

Local natives will be already adapted to your climate, pests and soils and will have the best chance of growing into big beautiful trees.

Good luck and talk to you next month!

On behalf of the Jackson family, we would like to thank the community, close friends, family and the people that attended on the night of the fire. Thanks to the wide spread community that have been extremely generous and supportive with their generosity, clothes , housing, money, kind words, support and those from outside our local community that have helped. You have all been the first step for us getting restarted, it is greatly appreciated, Lloyd , Shirilee , Bayden , Shalara

Participation Leads To Success

With Term 3 off to a great start in the classrooms and with extra-curricular activities under way we look forward to another busy term at EPS.

We would like to acknowledge and congratulate our end of Term 2 award recipients from our End of Term 2 Assembly;

Students of the Term : - Infants – Makala Leonard; Primary – Corey Williams; Library Student – Mitchell McMahon.

Assembly Awards: - Infants – Olivia Connell, Anastacia Mulligan, Chelsea Leonard, Hannah Williams Primary – Jake Greenhalgh, Toby Matheson, Ryan Valentine, Savannah Bevan.

From Miss Adams: - Infants – Macey Greenhalgh; Primary – Darcy Merchant.

100% Attendance: - Toby Matheson, Montana Bevan, Tamara Greenhalgh, Peter Valentine, Amelia McMaugh, Jed Matheson, Corey Williams, Savannah Bevan, Jodi Williams, Anastacia Mulligan, Ethan Brown, Sonny Bevan, Cameron Mulligan, Alec Maclean, Mitchell McMahon, Joe Valentine.

At the end of Term 2 we also participated in Crazy Hair Day and Red Nose Day in support of Cystic Fibrosis and SIDS respectively. The students made a great effort with their crazy hairdos making it very difficult for our guest judges Henry and Helen Hoswell to choose the winners.

At our assembly, Mr Henry Hoswell was presented with his retirement medal on behalf of the Department of Education. Henry worked for Eugowra Public School for a period of 15 years as the General Assistant and it was a nice opportunity to acknowledge Henry for his years in the workforce. The children enjoyed the stories of his working life and career with the Federal Police.

In the last week of the term the students were treated to a performance called "A Slice of Vaudeville". Mr Allan Sloggett thrilled the students with his magic, ventriloquism and one man variety show.

On Monday 22nd July our students were invited to St Joseph's School to watch music, dance and drama performances by students from Red Bend College. Red

Bend was showcasing their Creative Arts programs to our students. Congratulations to the talented students from Red Bend and thank you to St Joey's for inviting us – our students were captivated by the show.

On Friday 2nd August we will join forces with the Community for our Schools Tree Day activity, planting out our community vegetable gardens. Thank you to David Hyde, Arnie Howell and our General Assistant Garry White with your assistance the garden beds have been filled with soil and are ready to 'grow'.

COUNTRY WOMEN'S ASSOCIATION OF NSW

EUGOWRA BRANCH

The July guest speaker was member Bronwyn Guest who spoke of her lap banding experiences. Bronwyn related that the operation which took place two years ago has been a life-changing experience. She decided to have it for health reasons, not just weight loss, because she was heading towards Diabetes Type 2, had difficulty in breathing at night and her joints were not holding her weight.

The keyhole surgery (not covered by Medicare or private health insurance) involved 5 incisions and the insertion of a plastic band around the upper part of her stomach and a tube connecting the band to a port near her navel. The port facilitates the addition/withdrawal of saline solution by injection to adjust the band as necessary to limit/increase food intake.

A new way of eating based on several small "wet" meals per day, thoroughly chewed, and the exclusion of "white foods" such as chicken, rice and bread complements the lap band and has resulted in Bronwyn losing 33kg and enjoying a much better quality of life. Margaret Swift thanked Bronwyn for her fascinating talk and presented her with a small gift.

Members of the Eugowra community are warmly invited to join us for a Moroccan lunch at our International Day on Saturday 17 August in St Joseph's Community Hall at 12.00pm for 12.30pm.

Please RSVP to Margaret Swift on 6859 2256 by 9 August. A range of delicious Moroccan dishes will be provided and Moroccan artefacts will be on display. The children's school posters will be displayed in the Supermarket walkway from Monday 12 August till Thursday the 15th and will then be transferred to the Community Hall for judging at 11.00am on the Saturday and results announced at the lunch.

This time of the year is always busy as **Branches hold their International Days**, and it has been a particularly busy time for Wendy Carey who is the Group's International Officer. Wendy has attended the International Days for Borenore, Cumnock, Millthorpe and Orange Branches. Margaret Swift and Frances Anderson attended the Forbes day and Wendy Carey and Esther Hyde visited the Cumnock Branch for their celebration.

Margaret Swift, Wendy Carey, Frances Anderson, and Helen Perry heard lots of tips for the Land Cookery Competition and enjoyed lunch at the **Cookery and Cultural Day** at Cudal on 22 July.

Members News: a big welcome to our newest member, Kylie Godden, formerly of Sydney; condolences to Yvonne Smalley on the passing of her mother, Gladys Watson; and congratulations to Wendy Carey on

The next meeting will be held on Friday 9 August at 11.00am. The Guest Speaker will be Janet Noble talking about her recent Queensland trip. Please advise Margaret Swift on 6859 2256 if you require lunch.

Several members had a most enjoyable afternoon when they joined The Eugowra VIEW Club for their 5th birthday celebration at Eat Your Greens on June 30.

L-R: Yvonne Smalley, Margaret Swift, Frances Anderson, Jenny Anderson, Dorothy Jones, Helen Perry and Ula Langfield.

CABONNE LOCAL HERITAGE FUND

Applications are now invited for grants to assist local property owners to repair and conserve heritage buildings or places in the Cabonne Local Government area.

Eligible projects include repair and renovations on heritage building or places (eg fences, verandahs, decorative detail, windows, doors and awning).

Grants of up to \$1,000 (but not exceeding 50% of the value of the project) are available.

Guidelines and the application form are available by contacting Council's Environmental Services Department on (02) 6392 3247.

This is a funding program provided by Cabonne Council, in conjunction with the NSW Department of Planning – Heritage Branch.

Moroccan Lamb with Couscous

Ingredients

1 fresh long red chilli, chopped finely
2 cloves garlic, crushed
1/3 cup Moroccan seasoning mix
2 tablespoons olive oil
1kg lamb strips
2 teaspoons cornflour
3 1/3 cups (830ml) salt-reduced chicken stock
salt and freshly ground black pepper
2 tablespoons olive oil
2 cups (400g) couscous
30g butter, chopped
150g char-grilled eggplant, drained, sliced
1/2 cup coarsely chopped flat-leaf parsley leaves
250g prepared hummus

Method

Combine chilli, garlic, Moroccan seasoning and oil in a medium bowl, add lamb; toss to coat lamb.

Cook lamb, in batches, in a heated large non-sticking frying pan, until browned and cooked through. Combine cornflour with one tablespoon of the stock; add to pan with 1 1/3 cups (330ml) of the remaining stock. Cook, stirring, until sauce thickens slightly. Season to taste with salt and pepper.

Meanwhile, combine remaining 2 cups (500ml) stock and oil in medium saucepan; bring to the boil. Remove from heat; stir in couscous and butter. Cover; stand about 5 minutes or until liquid is absorbed; fluff with a fork. Stir in eggplant and parsley. (Reserve and refrigerate 1/3 of the couscous mixture and lamb mixture.)

Serve lamb with couscous and hummus.

The perfect location to celebrate

Your inspection is welcome. Mobile catering also available.

Love and Truth Through Christ

Its back to school after a lovely wintery break during the holidays. Its always great to hear the stories and see the happy smiling faces back in the classroom.

TEACHING STAFF

These next four weeks will see Mrs Heidi Holland in the Primary Room as our visiting Prac Teacher. Heidi is in her 2nd year of Primary Teaching

We also welcome Mrs Kylie Whatman who will be working with Mrs Dowd focusing on Numeracy and Literacy work with all classes and on an individual basis. We welcome Kylie to the St Joseph's family.

Kylie Whatman with some of her Literacy Numeracy students; Bailey Cullenward, Thomas Brindle, Daniel Martin, Olivia Holland, Hayley Valentine and Baylie Tulloch

RED BEND VISIT

On Monday 22nd we were lucky to have a visit from the Red Bend Music department showing off the students musical talents and abilities. It was great to see Mrs Justine Squire again along with some other ex Joeys people; Maddy Vincent, Emmy Den, Anika Heinzl singing and playing their songs.

Mrs Squire with school Captains; Katie Townsend and Ryan Huckel

Maddy Vincent & Natalie Hayes in the choir.

SOUTHERN REGION ATHLETICS CANOWINDRA

Well done to Katie Townsend, Jordan Moore, Liam Heinzl, Belle & Lily Wallace who represented the school at Southern Region athletics on Friday 26th. The competition was very stiff but congratulations to Liam who won a few green ribbons in his shot put and running.

BIKE SAFETY DAY

Thanks to Senior Constable Miles Burdin and the team from Cowra PCYC for our Bike Safety day on Friday 26th. The children had a wonderful afternoon riding their bikes around the grounds, then some bike maintenance and safety before doing the 'road rules'. We even had traffic lights! The older children even did a lap around town with a police escort.

Ready, Set, Go!

Baylie Tulloch riding safely and Katie Townsend being pulled over for a breath test.

Thank you for a lovely afternoon!

St Joseph's Staff & Students

Until next month,
 Take care and
 God Bless.

Eugowra Lions News

Lions members and their guests enjoyed a lovely barbecue lunch at the home of Max and Margaret Swift on 7th of July. Members are enjoying the more relaxed format of informal get togethers.

In the next few months the club will have a dinner at the Central Hotel after folding up the News, man the gate at the Show and organise a car boot sale. Please feel free to assist us in any of these activities.

We are happy to welcome our new members, Tony Toohey, Sandra Welch and Bruce Gregory and hope they enjoy being part of our friendly hard working club.

SIR DAVID ATTENBOROUGH VISITS AGE OF FISHES MUSEUM

Visitors to Canowindra's Age of Fishes Museum received a surprise this week when they were joined by one of the most famous and recognisable people on the planet – Sir David Attenborough.

The world's best known natural history film-maker called into the museum on a private visit with palaeontologist Dr Alex Ritchie.

The pair marked the 20th anniversary since Dr Ritchie helped excavate the ancient fish fossils on display at the museum, which provides a glimpse of life during the Devonian Period 360 million years ago - long before dinosaurs walked the earth.

A chance discovery near Canowindra in 1955 revealed an extensive fossil bed containing the remains of thousands of bizarre freshwater fish. Some had armour, others had lungs and some were huge predators with jaws like crocodiles.

Many were new to science.

Sir David, who is on a speaking tour in Australia, described the Age of Fishes collection as world class.

He spent four hours at the museum before lunching with committee members.

Regarded as a national treasure in Britain, the 87-year-old has been the face and voice of natural history programs for 60 years and is producing another series for the BBC.

2013 Eugowra Show Shaping Up to be the Best Yet!!!

2013 is set to be the biggest and best year of the Eugowra Show, not only is the show celebrating 100 fantastic years it is also celebrating our fantastic town and all it has to offer.

This year the NSW police force will be showcasing its PolAir Unit at the Eugowra Show, this is a display not to be missed. The PolAir unit is the aviation support branch of the NSW Police force. PolAir provides a broad range of services some of which include counter terrorism support, crime operations, search and rescue just to name a few. There will be a PolAir helicopter on display at the show. As well as officers from the PolAir unit. It is yet to be confirmed if the police dog unit will be attending the show. This will depend on the federal election and the date on which it falls on.

At the 2013 show there will be a fantastic draught horse display. This will include a log snig and a lead competition. Be sure to stop by the draught horse display and catch all the action. It will be an attraction the whole family can enjoy.

Speaking of great attractions the whole family can enjoy, the carnival atmosphere will be in full flight in the sideshow alley area with some of the best rides and attractions in the country being at this year's show. There will be entertainment galore for the whole family to enjoy, no matter what age!

As always there will be fantastic food on offer at the show, with the local ladies cooking up a storm. In our new and improved kitchen facility. Be sure to stop in and have a bite to eat and check out our facilities. The new kitchen is available for hire with the hall for all your parties and events. Contact the show society for further

information on the kitchen and hall hire. For the adults the bar will be open for a drink whilst enjoying the show and all it has to offer.

The search is now on for the 2013 showgirl, With Lydia Herbert's time as showgirl coming to an end. It is time to find our next Miss Eugowra it could be you. The showgirl competition offers the young lady who wins a fantastic opportunity to not only represent her community but the opportunity to travel and make new friends and contacts.

With the 100th anniversary being celebrated this year, there will be a thrilling and authentic re-enactment of the escort rock gold robbery. The re-enactment is going to have a showcase of expert horsemanship. As well as a very authentic and very real display of the events that took place on that historic day.

This year's grand parade will be a trip down memory lane with the best of modern and old on display as well as livestock and a mixed display of everything great the show has to offer. There is set to be a fantastic display of antique and unique farm machinery on display at this year's show, as well as the best in modern and advanced farm machinery. There will be something to start everyone's motor.

Whilst you're enjoying the show be sure to stop by the pavilion and check out all on display. From the beautiful cakes and gourmet creations to the creative artwork and craft displays from around the local community and schools. Be sure to Take a moment away from carnival atmosphere and get lost in the delicious and imaginative....

Speaking of creative you may spot a few interesting sculptures on display around the show. No there not the work of madmen!! They are the product of locals letting their creative juices flow!! Take a moment to investigate and explore the materials used to create these masterpieces.

There are so many things happening at this years show as well as new events there are some of everyones old favourites, including the skill and stockman ship of working dog trials, the gloss and pedigree of the cattle and sheep rings, the display of local produce and business, the carnage of the demolition derby, the glamour of the showgirl competition and of course the athleticism of the show jumping and horse events. There truly is something for every member of the family.

There is so much to see do and explore at the 100th Eugowra Show so get amongst it!! Explore, Play, Enjoy, and take time out to celebrate everything that's great about where we live! Come and spend a day at the show!

Emily Cross

EUGOWRA BUSHRANGER COMPETITION

To be held again for the Centenary Show

Gather up that scrap metal (or what ever) and get those creative juices flowing

CATEGORIES

Open open to the general public

Local within a 15km radius of Eugowra

Junior children attending school

Novelty to be decided by the judges on the day

All entries are to be judged on originality and use of materials.

The bushrangers can take any form and can be made from basically anything solid eg new steel, scrap steel, galvanised iron, wood or even storm water pipe (painted or unpainted). They can be on horseback, stage coach, stand alone etc – the possibilities are endless.

Sculptures used in the sesquicentenary competition are ineligible but can be displayed on the day to add to the atmosphere.

Eugowra Health Report

EUGOWRA MULTI-PURPOSE HEALTH SERVICE

Remember your Skin when you “Pink & Bling”

This month Pink & Blink is on again when we remember, act and prevent Breast Cancer.

When you are examining your breasts (Ladies & Gentlemen) remember to have a good look at your skin.

YOU should be checking monthly

If you can't see your own back, ask a family member or friend to help you. If you see something on someone else let them know.

Melanoma

Melanoma is the fourth most common cancer diagnosed in Australia.

Incidence and mortality

In 2009 there were over 11,500 new cases of melanoma diagnosed in Australia, accounting for nearly one in ten cancer diagnoses.

In Australia in 2011, there were 1544 deaths due to melanoma.

What do you look for ?

By looking at your skin regularly you can see if the lumps and bumps (moles and freckles) are changing. Look at ABCDE

A = Asymmetry (not even or balanced)

B= Irregular Border

C= uneven Colour

D= Diameter (usually over 6mm)

E = Evolving (changing or growing)

Causes

Melanoma risk increases with exposure to UV radiation – This is in sunlight and light from tanning machines (solariums).

We absolutely need healthy amounts of sunshine to maintain our health but getting sunburnt is inviting danger into your skin.

Prevention

Avoid sunburn by minimising sun exposure when the SunSmart UV Alert exceeds 3 and especially in the middle of the day when UV levels are most intense.

Seek shade

Wear a hat that covers the head, neck and ears,

Wear sun protective clothing and close-fitting sunglasses,

Wear an SPF30+ sunscreen.

Avoid using solariums (tanning salons).

Parents please be over the top with your kids. Their bodies are growing and this means their cells are even more sensitive to sunburn.

Get changes to your moles checked by your Doctor. The earlier the detection of a cancerous mole the less likely it is to have spread. The five year survival for people diagnosed with melanoma is 91%, rising to 99% if the melanoma is detected before it has spread. If spread is within the region of the primary melanoma, the five year survival is 65%, dropping to 15% if the disease is widespread.

For more information, contact Cancer Council Helpline on 13 11 20 (cost of a local call).

PINK & BLING

Thursday 8th August

7pm Eugowra Bowling Club

Competition
this year:
best onesie

You can wear it
or decorate one
or just come in your
pink & bling.

Best dressed winner's name goes on the "Donna Jones, perpetual trophy".

- Fashion Parade by "Somerset Lane".
- Guest speaker to be advised
- Auction of preloved items, (those items that you may have worn once or twice but too good to throw away), why not donate to the Cancer Council. Limit one to two items per person.

Bring a plate, not necessarily pink food.

Please bring a friend as the night usually has some "unexplained surprises"!

Entry: gold coin donation which gives you a ticket in the lucky door prize.

SAY G'DAY

With the colder weather upon us, we often don't venture outside, especially the older folk or disabled in the community.

In colder weather we tend to get a bit depressed as we can't go and do what we normally would in warmer months, eg gardening, walking, sitting out in the garden, and we tend to make excuses eg too cold, too wet, I'm aching all over, etc.

Nowadays a lot of folk are concerned regarding the price of electricity and rates, and general living expenses. Some won't turn their heaters on because they are concerned of the cost of electricity or gas.

For the month of August why not "say G'Day" to your neighbour. Just a quick phone call or a cuppa with your neighbour, just to make sure they're OK. Often our elderly neighbours get a bit lonely, some folk live on their own with no family in town.

**Any concerns please contact: - Ann Stenhouse- Eugowra Community Nurse

Pain relief for mulesing

Written by Belinda Edmonstone, Lachlan LHPA district vet (Forbes office)

Many producers will be preparing for the annual event of marking and mulesing winter and spring drop lambs. Animal advocacy groups over the years have been pushing to ban the practice of mulesing altogether on animal welfare grounds. This can have negative trade implications with animal welfare becoming increasingly consumer driven. Whilst we all know how much suffering a sheep with breech strike will go through and the benefits of mulesing they have a point in that performing a surgical procedure on an animal without any pain relief does create some animal welfare issues. The ultimate aim for industry is to breed sheep that do not require mulesing or to develop a less painful alternative to mulesing.

In the meantime we do have a product that can be used on mulesing wounds to provide pain relief, reduce bleeding and help protect the wound from infection. For those producers that have already been using Tri-Solfen I have no doubt you have seen the benefits. For those that have not used it now is time to consider it. Tri-Solfen is a spray-on anaesthetic and antiseptic that is applied to numb the wound immediately post-mulesing. It contains two local anaesthetics: a fast acting one that will reduce pain immediately after application and a longer acting one providing pain relief for up to 8 hours. The antiseptic cleans the wound and provides protection from bacterial contamination. It also contains adrenalin which causes the blood vessels to constrict reducing blood loss and causing wound contraction. It is gel based so it adheres well to the wound.

The overall result is that post-mulesing lambs mother up quickly, the wound heals faster and the lamb can focus on growing – a plus for both animal welfare and the producer.

Tri-Solfen is a Schedule 4 Prescription Medication and therefore only available from your veterinarian or the LHPA. It is supplied under an APVMA permit. For more information please contact your local LHPA office.

New Sheep Health Statement Released

By: Kasia Hunter, Lachlan LHPA District Veterinarian

Wool Producers Australia (WPA) and the Sheepmeat Council of Australia (SCA) have recently released the new and improved Sheep Health Statement (SHS) which is to be used as of the 1st of July 2013. The new document was developed by WPA and SCA in consultation with sheep producers, government and independent experts. The SHS has been designed to be adopted nationally.

The Sheep Health Statement is one of the most important disease risk management tools that buyers can use to make an informed decision regarding the health status and management history of any stock they wish to purchase. Therefore, the SHS should be considered an important step in maintaining biosecurity on your farm.

The use of Sheep Health Statements, although not mandatory, is highly recommended whenever sheep are bought and sold. Without this document producers would have limited information regarding the disease risk posed by brought-in stock. Sheep Health Statements are also commonly requested by many agricultural shows in order to minimise the risk of diseases spreading when sheep from different properties and locations co-mingle.

The new SHS captures information on important diseases such as footrot, lice, Ovine Brucellosis and Ovine Johne's Disease (OJD), allowing buyers to make informed decisions regarding potential new introductions to their herd. The new form (as with previous versions) also details any treatments which the consigned sheep may have been given, for example drenches or vaccinations.

It is important to remember that the SHS has legal significance; therefore before signing these documents producers must be satisfied that the information provided is true and correct.

The new statement has been simplified based on feedback from producers, making it a quick and easy form to complete. It features a series of 'yes/no' questions allowing buyers to make informed decisions suited to their individual circumstances. The ABC points scheme for OJD has been removed from the new statement as producer feedback indicated that this scheme was confusing and ineffective.

The new SHS has been designed to complement the revised National Ovine Johne's Disease Management Plan which aims to limit the spread of OJD in Australia. This plan also came into effect on the 1st of July 2013.

Copies of the new SHS are available on the OJD website (www.ojd.com.au), from your agent or by calling 1800 332 312. Alternatively please feel free to contact your local Livestock Health and Pest Authority office for a copy.

Making More From Sheep

- Historic workers cottage set amongst established gardens, with sprinkler systems, and lots of advanced native trees offer privacy and seclusion.

Working Dogs 🐾

A very successful Dog Training Clinic was held on the weekend 13,14th July, at the property of Kevin and Kay Howell, to raise money for the 2nd stage of the yards at the Eugowra Showgrounds.

Seventeen people were in attendance travelling from as far away as Sydney, Katoomba, Penrith, Narranderra, Gulgong, Dubbo, Forbes, Cumnock. Kevin gave his time with the help of Greg Walton from Penrith to teach the students the finer points in Yard work, field work, backing, and the block system.

Enough money was raised to finish the yards and the final panels were delivered on Monday morning.

Eugowra Girls “Rein” The Plain

Reining is a western riding competition where the rider guides the horse through a precise pattern of circles, spins and stops. All work is done at the lope and gallop. Reining is often described as a western form of dressage (at speed), as it demands control of every movement. The horse should be willingly guided or controlled with little or no apparent resistance and dictated to completely.

Shirilee Jackson and Kate Blackwood are being trained by a national “reiner”, Guy Wiseman from Dubbo NSW, to compete in their first event show 17th and 18th August at Dubbo, in a featured event "working cow horse" Kate Blackwood will be riding her QH mare Daisy Duke. Daisy Duke also has been in training as well with Guy Wiseman and is going extremely well, she's a very smart mare and a quick learner.

Shirilee Jackson will be riding her trained reining mare Dotty, aka Yellow Polka Dot. Shirilee will be using this mare until her colt is up and running. The colt's father was imported from America "Son of a Gun" and is also a national Reiner, "Stun Gun's grandfather "Gunnar" is a 5 million dollar sire. Shirilee hopes her colt will be even better and they will go to nationals, then once he achieves it he will be standing at stud, only to top quality mares.

Reining is a great sport and out of most things that Kate and Shirilee have done it's very hard to learn, it takes two years to train a horse to rein, and costs about \$25,000. Not all horses or people can do it, it's like learning how to ride all over again.

Summer irrigated cropping options

With water abundant in catchments, river levels steady and an increase in summer crop prices, there is renewed interest into irrigated summer cropping options around the districts.

Sorghums (both grain and forage), Maize and Soybeans are a few that have been mentioned as potential summer options with their prices starting to increase as the season's start grows near.

If thinking about these options there are a few considerations that need to be addressed before starting up the tractor and planter.

Paddock selection – did the paddock go under water in the last floods? Does the paddock require preparation from a flood damaged pasture? Does ripping or soil amendments need to occur/ applied? Have soil tests been conducted to assess nutrient levels.

Fertilizer options – As suggested in the above point soil testing will provide a 'base' nutrient level to assist in the design of a nutrient budget for the crop.

Weed pressures – An assessment of weeds in the paddock would be a good start in deciding what chemicals may be required for weed control pre sowing. Also, pre-emergent options should be discussed and organized for the summer crop of choice.

Water requirements – Although self explanatory, you need to know how much water may be required to achieve full yield potentials of the summer crop. By knowing this, water budgets and estimated water timings can be designed and implemented to achieve intended yield goals.

Late Stripe Rust Protection – Do's and Don'ts

Late planted crops around the districts are still the most vulnerable if rainfall occurs and may benefit from a stripe rust management program to help protect potential yields in these paddocks.

Some simple guidelines to follow this season in regards to stripe rust management;

Susceptible varieties (S-MS) should definitely have a stripe rust package designed for preventing the background amounts of stripe rust flaring and damaging

green leaf area. Most of these varieties that were planted early should have had a rust spray applied in the optimum control window (GS32-39) to protect the 3 leaves below flag.

Check growth stages in crops. By doing this, you can work out both optimum timing of the application and also determine how many application may be required due to the already exposed leaf area. All fungicides only translocate along already emerged leaf area not new leaf area that has emerged post a fungicide application..

DO NOT apply fungicides to MR-R varieties. There is no evidence that spraying MR varieties for stripe rust will result in any return on input cost. These varieties utilise adult plant resistance (APR) to protect green leaf area from increasing infections within the canopy by senescing (kill) infected areas of leaf to prevent pustules from producing more spores to infect new leaf.

Golden EUGOWRA Eagles

FOOTBALL UPDATE

Eugowra Golden Eagles are having a fantastic season so far. First Grade are giving the crowd solid performances each week and are in a great position as the clock winds down in the second half of the competition. Bobby and JJ Wykamp as coaches are doing a commendable job as many of the players have been hampered by injury and work commitments. The Eagles are looking good coming into the final games and could be a dark horse to the competition. The juniors have had a tough season with huge losses to the team from season ending injuries.

Eugowra will be hosting the Woodbridge Cup Grand Final on Sunday the 15th September this will be a massive day great for the club and the town with many visitors expected.

1ST GRADE LADDER ; Eugowra 28 , Cargo 23, Trundle 21 , Canowindra 16, Peakhill 15, Condobolin 15, Gooloogong 10, Grenfell 8, Molong 2

YOUTH LEAGUE LADDER ; Peakhill 23 ,Canowindra 18, Condobolin 16, Grenfell 10, Eugowra 7

LEAGUE TAG LADDER; Canowindra 28, Condobolin 28, Grenfell 18, Eugowra 14, Molong 12, Cargo 8.
